Hi (*prospect name*), it's (*Insert IBO Name*) How are you?,
 Hey, I am just rushing out, but just had to give you a quick call!
 I know this is left field, but do you look at other ways of making money in addition to what you are doing right now? ...*(PAUSE for response...Yes...)*
 Yes, I thought you would! Now you may not know this about me but... *(INSERT YOUR REASON WHY...)*
 I knew that there had to be a better way, and what I found is a company that is expanding here, specialising in new technologies!
 What I am most excited about is the person leading the expansion I met called.....who is having massive success and he/she is launching into our area.
 I don't know how I did it, but I have managed to secure 45 minutes of his/her time and he/she is coming over to my place on (*insert date...day...time*).
 I was thinking of key people, and I thought of you! Can I put you down for coming?

Handling any question from the prospect is to be answered this way only:

"That is a very good question and that is exactly why I have the expert coming over to answer those questions for us. Can I count on you for coming?"

If they can't make it:

"When is the soonest we can get together?"

If they say no:

Move onto the next person on your list of warm market contacts.

Hi _____ do you have a minute?

Great, the reason I'm calling you is to ask you for a huge favour and I was wondering if you could help me out?

I've just started a part time business from home, helping people save money on their monthly bills. (Share your reason why)

If I could match or save you money on your Telecommunications & Essential Services would you give me the opportunity to try? This would really mean a lot to me?
