They will pay just \$29 upfront and the rest over 24 months in easy monthly interest free instalments for selected phones. This will be added to their monthly bill in addition to their plan charges. It's pretty easy, see the example on the right:

How to calculate mobile repayments for a \$1199 phone on a \$55 Carryover Plan:

EXAMPLE

1	\$1199	-	\$29	=	\$1170
	handset cost		upfront payment		balance
2	\$1170	/	24	=	\$48.75
	balance		months		MRO amount
3	\$48.75	+	\$55	=	\$103.75
	MRO amount		Plan fee		per month

Plan prices as at 20/09/18 and subject to change. We advertise the price rounded up to the nearest dollar. However the customer is charged the exact amount rounded down to the nearest cent. Remaining phone balance will be repayable if customers leave/move from their plan during the interest free term. Plan and Mobile Repayment terms apply.
