

Click ACN quotes show your value

Click Energy offers an easy to use, sophisticated quote tool to help you show the value and compare actual usage against your current energy provider.

The screenshot shows the ACN Click Energy quote tool interface. It includes a navigation bar with 'Home', 'About Us', 'Sign Up Online', 'FAQs', and 'Contact Us'. The main heading is 'Get a quick quote'. The interface is divided into several sections:

- Customise your energy quote:** Features radio buttons for 'Use usage profile' and 'Enter exact usage' (which is selected).
- Electricity Tariff:** A dropdown menu showing 'Peak Only' selected, with a list of other options including 'Flexible Pricing' (highlighted with an orange arrow).
- Electricity Usage:** A table showing 'Peak' usage of 500 kWh and a 'Period' of 91 days.
- Natural Gas Usage:** A table showing 'Usage' of 2500 MJ and a 'Period' of 91 days.
- ACN Mint Summary:** Displays 'Low usage & supply charges' and an estimated monthly cost of \$100.43 (inc. GST). A 'Switch to Click Energy' button is present.
- Additional Callouts:** Two orange arrows point to the 'Flexible Pricing' option in the tariff dropdown and the 'Period' field in the electricity usage table, which is also highlighted with an orange box.

Choose the right tariff

Retailers bill differently. Make sure you compare the correct period
