

What counts towards your qualification?

In the Compensation Plan, there is a requirement to qualify with at least 3 services. This document is a guide to help clarify what products count/qualify as a service.

AUSTRALIA

Service	Counts towards qualification
amaysim Mobile	<ul style="list-style-type: none">Each service with a different phone number counts as a service
amaysim Mobile Broadband	<ul style="list-style-type: none">Each service with a different service number counts as a service
Vodafone Mobile	<ul style="list-style-type: none">Each service with a different phone number counts as a service
Vodafone Mobile Broadband	<ul style="list-style-type: none">Each service with a different service number counts as a service
Vodafone Broadband (nbn™)	<ul style="list-style-type: none">Each service with a different address counts as a service
MATE Mobile	<ul style="list-style-type: none">Each service with a different phone number counts as a service
MATE Broadband	<ul style="list-style-type: none">Each service with a different address counts as a service
Sumo Energy	<ul style="list-style-type: none">Each meter counts as a different service
Security (ADT)	<ul style="list-style-type: none">Single plan counts as a separate service
Payments Processing (Sphere)	<ul style="list-style-type: none">Single location counts as a service
MyNetFone	<ul style="list-style-type: none">Each Cloud Phone Virtual PBX plan counts as a service

NEW ZEALAND

Service	Counts towards qualification
Agency service	
Security (ADT)	<ul style="list-style-type: none">Single plan counts as a separate service

The above method is used to determine whether a service contributes to the minimum required for qualification, regardless of whether that service is part of a bundle offer or not.
