Conxxion Independent Business Owners (IBOs) can earn money in four ways:

- Residual commissions paid monthly based on their personal customers' usage of Conxxion's services.
- Residual commissions paid monthly based on their downline's customers' usage of Conxxion's services.
- Bonuses paid weekly based on their personal customer acquisition.
- Bonuses paid weekly based on their downline's personal customer acquisition.

Compensation is earned only when customers are acquired.

Refer to the Conxxion Compensation Plan for complete details. Earnings as a Conxxion IBO are based solely upon the successful sale of products to customers and their usage of those products. Individuals will incur expenses in operating their Conxxion business, such as the fee and renewal fee, as well as other possible operating expenses. As with any business, earnings and success at Conxxion are not guaranteed but depend primarily on the individual's persistence, effort, and results of acquiring customers personally and/or through their team. Individuals will not earn income and will lose money as an IBO if customers are not acquired.

Earnings as a Conxxion IBO are based solely upon the successful sale of products to customers and their usage of those products. Individuals will incur expenses in operating their Conxxion business, such as the sign-up fee and renewal fee, as well as other possible operating expenses. As with any business, earnings and success at Conxxion are not guaranteed but depend primarily on the individual's commitment, persistence and effort. Individuals may not earn income and may lose money as an IBO.

Conxxion's Compensation Plan is subject to change without notice at Conxxion's discretion and for any reason.

MONTHLY RESIDUAL COMMISSIONS

Over time, the majority of your compensation will come from the residual income you earn from the services your customers use. Customer acquisition is the fuel for your business, creating long-term income. By teaching other people how to gain customers, you can build residual income for yourself.

PERSONAL COMMISSIONS

As you acquire your own personal customers, you qualify to earn between 3% and 20% of their Monthly Commissionable Revenue based on their services. This percentage is based on your total number of Personal Customer Points:

1-39 Customer Points	= 3%
40-59 Customer Points	= 5%
60-99 Customer Points	= 10%
100-149 Customer Points	= 14%
150-199 Customer Points	= 17%
200+ Customer Points	= 20%

TEAM RESIDUAL COMMISSIONS

All paperwork necessary for IBO commission qualifications must be received by Conxxion no later than 2pm on the first Friday of the month. **Commission payments are generated on the third Friday of every month and lodged with your financial institution by the following Tuesday.**

WEEKLY TEAM CUSTOMER ACQUISITION BONUSES (CABs)

Team Customer Acquisition Bonuses (CABs) are paid when an IBO within your organisation sponsors a new IBO that becomes Customer Qualified within their first 30 days. In order to count for qualifications, all new customers must show a “complete” status on the IBO’s Personal Customer List. A customer will show a “complete” status when all the necessary information has been received and processed by Conxxion.

Open Line \$50	Open Line + \$75	Open Line + \$150	Open Line + \$100
		1 st Generation + \$75	1 st Generation + \$50
Open Line CABs are bonuses you earn when IBOs in your organisation, who are not under an IBO that has reached the same earned position (or higher) that you have reached, acquire customers to become qualified within 30 days of their start date.		Generational CABs are bonuses you earn when IBOs in your organisation, who are under an IBO that has reached the same earned position (or higher) that you have reached, acquire customers to become qualified within 30 days of their start date.	

REMEMBER:

Compensation is earned **only** when customers are acquired. Conxxion reserves the right to retract the payment of any bonus or commission if it is found that a customer used to qualify for a bonus or a certain commission level was not a valid customer.

AUSTRALIAN CUSTOMER POINT SYSTEM & COMMISSIONABLE REVENUE

The only way to earn income at Conxxion is through the acquisition of customers; therefore all IBOs must acquire customers in order to meet qualifications and advance through Conxxion's earned positions. Conxxion utilises a Customer Point system for each of its products and services. Services provide long-term residual income.

AU Compensation Plan Terms and Conditions:

DEFINITIONS AND RULES:

Accreditation - To receive qualifications and compensation for customers successfully referred to any Conxxion partner via Conxxion, IBOs must be current with their Australian accreditation requirements in accordance with Conxxion's policies. If an IBO does not complete the required accreditation training modules, including CAC Accreditation and Energy Accreditation, prior to or within 90 days of a successful customer service referral then the IBO will not receive points, qualification or commissions for the customer's service.

Monthly Billing refers to standard monthly rate as determined within the "Customer Point System & Commissionable Revenue" table as the nominated plan fee. For Energy services 100% of nominated Monthly Plan value is used for Billing Revenue. For Truwi services the Monthly Billing is equal to Monthly Commissionable revenue values.

Monthly Downline Billing is the total monthly billing of your personal and downline customers, unless stated otherwise.

Commissionable Revenue is as defined in the Product Table less taxes, surcharges and an allowance for bad debt (where applicable). Conxxion reserves the right to reduce commissionable revenue by a percentage factor for promotional plans, products, negotiated pricing or certain services.

An IBO must maintain the requirements for CQ (see page 2 of this document) in order to be eligible to be paid CABs, Commissions and Promotional Bonuses.

A maximum Customer Point threshold applies to the following Australian services: Mobile & Mobile Broadband, nbn™ Broadband, Lineshare Services, Security Services and Energy. A maximum of 50 Customer Points for each of these services can be awarded to a single customer account. This maximum Customer Point threshold will only apply to new services added to a customer's account after 1 August 2011. This maximum Customer Point threshold does not replace Conxxion's CQ qualification requirements (see the current Compensation Plan and section 1.8G of Conxxion's Policies & Procedures).

Customer Cancellations: If a customer cancels their service within the first 90 days, the service will immediately stop counting towards qualification and will result in automatic reversal of all bonuses, CABs and Commissions.

Customer bonuses exclude: a) New mobile service numbers or numbers that switch between our mobile partners b) Switches between our nbn™ broadband service providers

A Service will not be considered complete and you will not gain qualification points until a complete online service order has been received. See '[When is a Customer a Customer](#)' document.

Non-Activated Mobile and nbn™ Broadband Services: If a customer's service has not been successfully activated within 90 days from application date with a Conxxion telco partner, the service will be purged from the IBOs PCL. If the customer does successfully activate their service following PCL purge, the service will be reinstated as Active within the IBOs PCL.

Mobile and nbn™ Broadband Purge Rules:

- For customers whose service has been active with a Conxxion telco partner for less than or equal to 90 days, services will purge immediately upon notification from partner that the customer has moved to a new provider or disconnected their service.
- For customers whose service has been active with a Conxxion telco partner for more than 90 days, services will purge on the last Friday of the next calendar month from partner notification to Conxxion that the customer has moved to a new provider or disconnected.

Please note that the 90-day timeframe is from successful service activation, including first call or data use on a mobile or broadband service, not customer application date.

New Number services will award points 45 days from activation and will not be eligible for qualification or Customer Acquisition Bonuses unless explicitly stated.

Switched Service Sign-Ups (Mobile & nbn™): When an existing Conxxion Mobile or nbn™ customer who is currently allocated to one IBO switches their service from one Conxxion partner to another, and the resulting new service is linked to a different IBO ID, the IBO associated with the new service will be rewarded for moving the customer. The original IBO who first referred the customer to Conxxion will continue to be rewarded until the earlier of: (a) the date the service disconnects from the initial Conxxion partner, or (b) if the service has been active for more than 90 days, the date on which the service is purged on the last Friday of the next calendar month following disconnection.

Switched Service Sign-Ups (Energy): When an existing Conxxion Electricity or Gas meter is switched from one Conxxion Energy partner to another, and the resulting new service(s) are signed up under a different IBO ID, the new service(s) will remain commissionable to the original IBO.

Number spinning will not be eligible for qualification points and will not earn commission. Number spinning may also result in the termination of an IBO position. Number spinning includes:

- a service that is ported away from a Conxxion partner that is then ported back to the same provider within a 60-day period and/or
- a new service that is activated for an existing Customer with a Conxxion partner, followed by a cancellation of a pre-existing prepaid or post-paid service in the same customer name within a 60-day period.

MOBILE & MOBILE BROADBAND:

- MATE and Vonex Mobile** - IBOs cannot sign up existing services under Conxxion.

BROADBAND:

- MATE and Vonex Broadband** - IBOs cannot sign up existing Broadband services under Conxxion. Broadband Monthly Commissionable Revenue is \$20 less GST.

PAYMENT PROCESSING:

- NMI New Merchants is defined as** customers who cannot supply a previous electronic processing history or who have not previously had electronic payment services. Points for a NMI Payment Processing will be allocated to the IBO when the service account is merchant-approved. Customer Point(s) acquired for each successful service activation are static allocations based on point in time payment processing volume (\$) as evidenced by the Merchant's provided statement/s, or lack thereof, during sign up. Volume (\$) fluctuations in the Merchant's monthly processed revenue will not alter original Customer Point(s) allocation but will however be reflected in IBO Residual Commissions.
- Customer Points are only awarded for new NMI Tyro customers.** No points will be awarded to IBOs whose customers are under contract directly with Tyro and are switching to NMI (Tyro).
- Commissionable revenue is paid** on NMI Payments revenue for the life of the customer, less taxes, surcharges and an allowance for bad debt. Conxxion reserves the right to reduce commissionable revenue by a percentage factor for promotional plans, products, negotiated pricing or certain services.

PHONE:

- A Vonex customer is defined** as a customer who connects a new Vonex ONdesk VoIP, ONsip VoIP and Virtual PBX Lineshare phone service on an eligible plan.
- Monthly Commissionable Revenue** is calculated based on the monthly plan fee invoiced each month and is paid for the life of the customer. Customers whose accounts are suspended due to non-payment of invoice(s) and/or that are not in good standing with Vonex contract terms, will not qualify for commission during this period. Equipment revenue, additional subscriptions and other Vonex products and services are not commissionable.
- Points and commissions paid on life of customer** - while that customer continues as an active billing customer of Vonex on a OnDesk VoIP, ONsip VoIP and Virtual PBX Lineshare plan, and while Conxxion remains in an agency relationship with Vonex.

ENERGY:

9. **Energy** - Electricity & Gas services will be purged after 60 months or if the customer cancels or switches provider, whichever occurs first. You will cease to receive points and commissions for purged services. Customer Points are awarded for new energy services following order acceptance.
- **Duplicate Meter Rules:** Where the energy provider receives an order for a duplicate electricity or gas meter (i.e. the meter is associated with a service already allocated to an IBO in PCL under a different account name), the new order will be held as a Commissions Only service in PCL for 120 days, and will be ineligible for qualifications and bonuses. Where the energy provider receives a new order for an electricity or gas meter that was previously activated by the energy provider within a 120-day period, the new order will be awarded as a Commissions Only service in PCL for 120 days and will be ineligible for qualifications and bonuses. For both of the above Duplicate Meter scenarios, following 120 days the new electricity or gas service will be set to active status in PCL and points will be awarded.
 - **Returning Energy Customers:** Energy customers returning within a 365-day period from their initial meter switch date are ineligible for bonus payments. This applies to gas or electricity meters switching between Conxxion energy partners and reverting to the original provider within the specified timeframe. The service remains in commission-only status, accruing 0 points for the first 7 months, after which the regular points allotment is awarded.
 - **Energy Purge Rules:** For customers whose meter has been switched with the energy provider for less than or equal to 90 days, services will purge immediately upon notification from the energy provider that the customer has moved to a new provider. For customers whose meter has been switched with the energy provider for more than 90 days, services will purge on the last Friday of the next calendar month from the energy provider notification to Conxxion that the customer has moved to a new provider. Please note that the 90 day timeframe is from successful gas or electricity meter switch to the energy provider, not customer application date.
 - **Non-Transferred Meters:** If a customer's meter has not been successfully transferred to the energy provider within 120 days from application date, the service will be purged from an IBO's PCL. If the customer does successfully transfer their meter following service purge, the service will be reinstated as Active within an IBO's PCL.
 - **Bonus Qualification:** Customers will count toward bonuses, provided the service/s are activated or pending activation and once the 10-day cooling-off period has passed. Bonuses will be calculated based on order date.
 - **Energy Upgrades:** Customer must be active and have had their meter switched for more than 90 days prior to Conxxion sign-up.

HOME INSURANCE:

10. **Honey Insurance**
- Service(s) will not be considered complete, and you will not gain qualification points until the customer has activated their policy.
 - IBOs cannot sign up existing Honey Insurance services under Conxxion.
 - Points and commissions paid on life of customer - while that customer continues as an active billing customer of Honey Insurance.
 - Duplicate Insurance Policies: IBOs must only refer genuine, needed insurance policies. Duplicate policies on the same property may be deemed ineligible for points, bonuses, commissions or qualifications.
 - Honey Insurance Sweet Rewards Program - See full terms and conditions here: [Honey Insurance Sweet Rewards Program Terms – Conxxion Compass](#)

STRIVE FOR PROMOTIONS:

GRACE PERIODS FOR EARNED POSITIONS – AUSTRALIA REGION

A grace period is the amount of time an RD or above has to regain qualifications in the event they drop below the qualification minimums of their earned position. In the event qualifications are not met prior to the end of the grace period, the IBOs position and compensation will be adjusted based on their true position.

- **RD: Must maintain position with 580 to 599 (max 200 points per leg) Total Customer Points.**

If the Total Customer Points drop below 580 points, RDs will have a grace period of 15 days. After the grace period expires, the IBO will need to have 600 points (max 200 points per leg) to re-qualify as a RD.

- **RVP: Grace Period of 2 months.**

A grace period of 2 months is provided for those RVPs who have maintained the position for the previous 3 months. To maintain their positions, RVPs must have 3,000 Total Customer Points in their team.

- **SVP: Grace Period of RD and RVP legs. An additional grace period of 2 months is provided for those SVPs who have maintained the position for the previous 3 months.**

There is no grace period for RVP Gold and Platinum status.
